## FEEDBACK FROM OUR TEACHERS

*“Documentaries are a great way to initiating debates and promoting interest among students in human rights topics and enabling them to form their opinions and attitudes.”*

*“Unknown content becomes accessible, it enables overcoming routine in teaching and awakens interest in students, provides life-relevant knowledge.”*

*“Concrete and emotionally powerful human stories told through documentary films can have a much deeper impact than hundreds of words.”*

*“A documentary film is an opportunity for marginalized people to play the main role, and that the viewer understands the complexity of the world in which he lives. Thus, documentary engaged movies contribute to the development of democratic values in society”*
